

Supporting Students with ASD in your Classroom

Course Syllabus

Overview. This interactive online course is intended to provide participants with the most current understanding of evidence-based practices for teaching students with Autism Spectrum Disorder (ASD). This course is designed for teachers who share an interest in learning about ASD and currently work with students in a K-12 school setting.

Course Sequence. The course consists of nine on- demand computer-based modules, three live online sessions, and a capstone project to be covered in the following sequence:

Week 1	Completed by
Access to Course Begins	Wednesday, October 11
Module 1: Introduction to the Course	Wednesday, October 18
Module 2: Introduction to ASD	
Week 2	
Module 3: Individual Differences Found in People with ASD	Wednesday, October 25
Module 4: Understanding Behaviour	
LIVE SESSION 1	Thursday, October 26 3:30 - 5:30pm
Week 3	
Module 5: Effective Instruction for an Inclusive Classroom	Wednesday, November 1
Week 4	
Module 6: Structuring the Environment	Wednesday, November 8
Module 7: Goals, Strategies and Resources for Communication	
Week 5	
Module 8: Goals, Strategies and Resources for Social Skills	Wednesday, November 15
LIVE SESSION 2	Thursday, November 16 3:30 - 5:30pm
Week 6	
Module 9: Goals, Strategies and Resources for Executive Functioning	Wednesday, November 22
Submit Capstone Project Implementation Plan to instructor	Wednesday, November 22
Week 7	
Deadline to Receive Feedback on Implementation Plan	Monday, November 27
Complete post-course survey	Wednesday, November 29
Weeks 8-11	
Work on Capstone Project	November 27- December 13
Submit Power Point Presentation, one- page summary, and any additional products to Instructor.	Wednesday, December 13
LIVE SESSION 3: Final Presentations for Capstone Project	Monday, December 18 OR Tuesday, December 19 From 3:30-5:00 pm OR 5:30-7:00pm

Please review the dates carefully. It is your responsibility to contact your instructor prior to the deadlines if you have any conflicts or extenuating circumstances.

Instructors are available for on-going support and want all students to be successful. This course requires a substantial time commitment and our experience is that it can be very difficult to catch up if you fall behind. To encourage student success, the following procedure exists:

1. The first time you fall behind, your instructor will contact you with a deadline to submit any missing work. This will be outlined in your Marking Guide.
2. If there is a persistent pattern of late work (two or more deadlines missed), you will receive a formal letter documenting final deadlines to catch-up.
3. If you cannot meet those deadlines, you will be dropped from the course.

On- Demand Modules. Participants are expected to complete each of the nine modules in order and on time. Each module does not need to be completed in one sitting; however, you do need to complete each in its entirety by the deadline that is indicated. You can complete modules ahead of time, if you so choose.

Live Online Sessions. There are three live sessions scheduled during the course; ***participation in all three sessions is a requirement to pass.***

During the live sessions, the instructor will reinforce and extend the concepts you have learned in the online modules. The purpose of each live session is to establish a professional learning community; you will be expected to actively participate in discussions, practical exercises, and presentations. Live sessions will help you apply what you have learned to your work with students with ASD.

Capstone Project. This course requires completion of a capstone project. You will be developing a project that will further your knowledge and skills in a specific area of your choice. Your project is intended to provide you with the opportunity to engage with content beyond what is provided in the modules and live sessions of the course. Detailed requirements for your project are outlined in the document *Capstone Project Details*. You will also need to submit a plan for your project using the *Capstone Project Implementation Plan* form. Both documents can be found under the “Course Documents” folder on the course website.

Each project will be assigned a mark of Pass +, Pass, or No Pass based on quality of work and completion of approved Project Implementation Plan. Planning will begin at the start of the course.

Evaluation

Your mark in this class will be based on completion of the on-demand modules, assignments, readings and quizzes, participation in the live sessions, and the final capstone project. In this course, you will be expected to learn independently (through the on-demand modules, readings, assignments, videos and capstone project) and collaborate with others (live session participation).

It is imperative that you keep up with a rigorous pace of instruction.

Course Marks

Upon completion of the course, each participant will receive a mark as follows:

Superior Pass –

- All assignments are completed and reflect a high standard of work.
- All assignments and modules are submitted on-time.
- A “Pass +” on the capstone project.

This mark is reserved for individuals that have exceeded course expectations by demonstrating exceptional effort through the quality of work they produce, time they dedicated to learning, and willingness to go beyond the course expectations in their work on the capstone project.

Pass – Completion of all required assignments and a “Pass” or “Pass +” on the capstone project.

No Pass – “No Pass” on the capstone project, incomplete assignments or quizzes, failure to participate in live sessions, and/ or did not complete the on-demand modules.

Survey and Quizzes

Pre-course survey. The first item on the course website is the pre-course survey; you should complete this before starting any other modules. You will also find the URL to the pre-course survey in the *Online Course Tech Sheet* document in the “Course Documents” folder. The intention of this survey is to provide information to your instructors about your entry knowledge. You are not expected to know every question, nor will this count toward your final mark. Please do not be discouraged if you find the survey difficult; it is the job of your instructor to ensure that you learn this content during the course.

Post-quizzes. After you have completed a module and the assigned readings, you will need to return to the course website to complete a post-quiz. We encourage you to use quiz results to identify any concepts you

may need to review before proceeding to the next module. You must complete all the quizzes with 80% accuracy to advance to the next module. You can take the quizzes multiple times to achieve the necessary marks.

Post-course survey. After completing all nine modules, you will receive a link to the post-course survey. The post-course survey is mandatory to complete. Like the pre-course survey, the results will not affect your final mark.

Readings, Assignments, and Videos

All assignment pages can be downloaded from the course website under the "Assignments" folder. Links to readings and videos are under the "Readings" and "Videos" folders.

Readings and Assignments. Completion of all readings and assignments is mandatory to receive a passing mark. A list of readings and assignments for each module is provided below. Assigned work for each module needs to be submitted to your instructor by 11:59pm on the date indicated.

Submitting Assignments. Completed work should be saved and sent via email to your instructor in .pdf, .docx, or .doc format. If you are printing and scanning documents, please ensure it is completely legible before sending. Assignments that need to be submitted via email are outlined in the course syllabus.

Instructor Email: (First letter of name) + (Last name) @autismoutreach.ca. For instance, Amanda Hume is ahume@autismoutreach.ca. Carly Eirikson is ceirikson@autismoutreach.ca.

If you are unable to email an assignment, you may send it via fax. Please direct faxes to the attention of your instructor. Fax: (604) 946 – 2956.

Videos. Videos are assigned to supplement content covered in the on-demand portions of the course. All credit for videos goes to producers of the website *interactingwithautism.com*.

List of Assignments and Due Dates

Prior to Beginning Module 1

Due Date: Wednesday, October 18

Readings: <ul style="list-style-type: none">• Getting Started with the Online Course• Course Syllabus• Capstone Project Description
Assignments: <ul style="list-style-type: none">• Complete pre-survey (Complete online; Go to course website for link)• Complete Tour of Connect (Online)• Complete Tour of On-Demand Sessions (Online)
Videos: None

Module 1. Introduction to the Course

Due Date: Wednesday, October 18

Readings: <ul style="list-style-type: none">• None
Assignments: <ul style="list-style-type: none">• Complete Module 1 Review Questions (Email to instructor)
Videos: None

Module 2. Introduction to ASD**Due Date: Wednesday, October 18**

Readings: <ul style="list-style-type: none"> • Intro & first half of Chapter 1. <i>The National Autism Center's Evidence-Based Practices and Autism in the Schools</i>, 2nd Ed (pp. viii – 23) • Kluth, P. (2010) <i>"You're going to love this kid!": Teaching students with autism in the inclusive classroom</i>, 2nd Ed. Baltimore, MD: Paul H Brooks Publishing Co. [Pages xiii – xiv, 1 – 2, 189 – 190]
Assignments: <ul style="list-style-type: none"> • Know, Wonder, Learn Chart (KWL- Email to instructor). • Mod 2 post quiz (Complete online)
Videos: Causes, Prevalence, & Vaccine Controversy

Module 3. Individual Differences Found in People with ASD**Due Date: Wednesday, October 25**

Readings: Second half of Chapter 1. <i>The National Autism Center's Evidence-Based Practices and Autism in the Schools</i> , 2 nd Ed (pp. 24 –31)
Assignments: <ul style="list-style-type: none"> • Mod 3 post quiz (Complete online) • Complete a one page reflection on content covered in the course so far. (Email to instructor)
Videos: Voices from the Spectrum & Sensory Issues

Module 4. Understanding Behaviour**Due Date: Wednesday, October 25**

Readings: <ul style="list-style-type: none"> • Sayeski, K. L. & Brown, M. R. (2011).
